

Step 7 - (Optional) Migrate from i.LON Servers to the SmartServer IoT

You can use the SmartServer IoT as a replacement for the i.LON 600 and i.LON 700 IP-852 routers. The SmartServer IoT includes an IP-852 router, and is compatible with the i.LON 600 and i.LON 700 routers, as well as other IP-852 compliant routers. The following topics describe how to replace an i.LON 600 or i.LON 700 router:

- [Migrating from the i.LON 600 to the SmartServer IoT](#)
- [Migrating from the i.LON 700 to the SmartServer IoT](#)
